

Geelix™

The best way to **browse, play** and **share** gaming experiences.

Three scores of legions at the gates of Azeroth. The sword is cold in your hand. Unleash the legions. Ahh, how I wish I had captured that! Capture and share your experiences with your friends and others. Enjoy and have fun!

Introduction

With *Geelix*, you can easily browse, play and share a vast amount of game media content, such as game play, trailers and more. It is great for:

- ❑ Learn more about the game; how to play, strategy, tips, etc.
- ❑ Upload your own game play's to share with your friends and others
- ❑ Evaluate which games you want to buy
- ❑ Or, you can just sit back and watch :)

Geelix HUD™

The *Geelix In-Game Head Up Display (HUD)* provides an extra layer of essential gameplay sharing features (“hudlets”) inside the game:

- ❑ High Definition Gameplay Video Recorder
- ❑ Live Video Capture and Streaming
- ❑ Live Video Spectator Experiences
- ❑ Game Server Management and Sharing
- ❑ Instant Messaging and Voice over IP
- ❑ Browse and Search for other Gamers
- ❑ Public Social Gaming Profile with Score
- ❑ Manage Game Friends and Subscribers
- ❑ Annotating and Uploading HD Video
- ❑ Game Statistics and Logging

Figure 1. Geelix HUD

Geelix HUD Desktop 4.0 integrates with games to automatically capture, encode and share the video gameplay onto the *Geelix portal*. The goal is that everyone playing computer games can always record and share video of their gameplay. *Geelix* will accumulate a huge amount of gameplay HD-video's, annotated with keyboard and joystick operations. In addition, live gameplay is provided, allowing people to view gamers who play video games and providing gamers with a spectator experience.

Geelix Portal™: Browsing Game Media

The overall purpose of the *Geelix Portal* is to attract serious gamers to share their gaming experiences:

- ❑ Browse and Play HD Game Media
- ❑ Browse and View Live In-Game HUDs
- ❑ Browse all major Game Titles
- ❑ Groups/Clan Management
- ❑ Game Media Annotation
- ❑ Game Server Allocation and Sharing
- ❑ Playlist Authoring and Sharing
- ❑ Media Center support
